

Multi-function valve island X Series

Model Number

XS5 V 10 - C4

① ② ③ ④ ⑤

① Valve series

code	series
V	Vacuum generator

② Nozzle diameter

code	07	10	12	K
caliber	0.7mm	1.0mm	1.2mm	custom

③ Vacuum port (V) fitting

code	caliber
C4	4mm
C6	6mm

④ Vacuum pressure holding

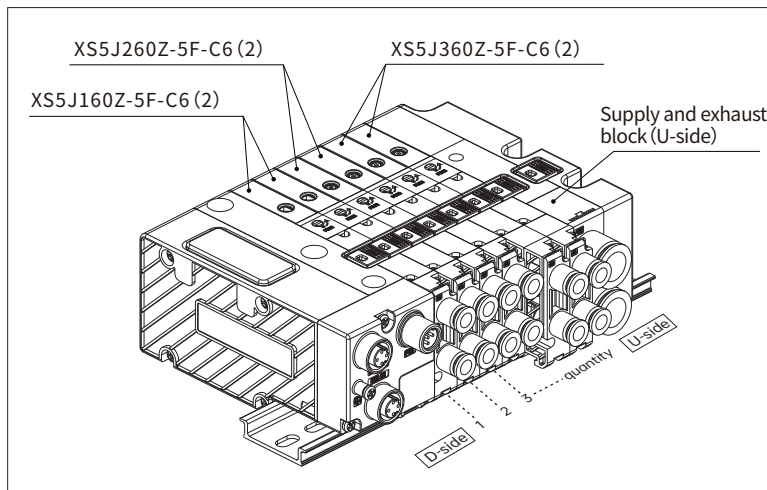

code	specification
blank	Common type
R	Pressure retaining type

⑤ Sensor specification

code	blank	N	P	V	A (custom)
specification	sensorless	1 NPN output	1 PNP output	1 analog voltage (1~5V)	1 channel analog current (4~20mA)

How to Order Valve Manifold Assembly

Representation example (X5J-PN-06UC8C8)

X5J-PN-06UC8C8 ······ 1 (Packaged models)

* XS5J160Z-5F-C6 ······ 2 (2 position single electric control model)

* XS5J260Z-5F-C6 ······ 2 (2 position dual electric control model)

* XS5J360Z-5F-C6 ······ 2 (3 position center seal model)

→ * It's a group sign.

* Please indicate at the beginning of the type of solenoid valve etc loaded.

- The valve number is the first digit on the D side.
- Below the packaged model, starting from the first position of the diagram, record the sequence installed the valve. In addition, please refer to the container type selection for complex arrangement.

Note) Please specify the type of the valve to be loaded when ordering.
(Only packaged models, cannot be configured.)

Parameter specification

Packaged specifications			
form		Type D auxiliary socket	Serial wiring
		Plug socket connection	Plug socket connection
Container type		Plug-in, plug socket connection	
SUP、EXH		SUP and EXH	
Valve number		1~18 bit (36 bit single electronic control)	
Applicable plug		Flat cable socket	Type D auxiliary socket
Internal wiring		Plug and socket connection: no polarity	
Piping specifications for port A and port B	site	5000 solenoid valve, vacuum generator, vacuum pump unit	
	direction	side	
Nozzle diameter	SUP、EXH	C6、C8、C10、C12	
	A、B	C4、C6
